

## GOOD CROP IN THE SOUTHWEST

Secretary F. D. Coburn, of the State Board of Agriculture, is interested in no part of the state more than he is in the western part. He keeps close tab on the developments there and likes to get his information first hand—by personal observation. It was time to make a trip through that section and as he was unable to go he sent his assistant J. C. Mohler.

Mr. Mohler went to the southwest first and written to Mr. Coburn from Liberal, in Seward county, some of his impressions. A part of his letter to Mr. Coburn reads:

"This certainly is a bully country and the people are the salt of the earth. The present has been one of their best years for kafir corn and milo, and the broomcorn people have sold their crop this year, in some instances for as much as \$225 per ton, a record price.

"There are no calamity howlers out here; they are all boosters, and I have not come across anyone who was not optimistic. It is something fine to mix with such people."

"Liberal is a mighty busy place and all these towns down here look spic and span. There is something going on all the time and the people neither need nor want sympathy. As a matter of fact they are envious. They have fields of Indian corn that will yield as much or more than some in good old Shawnee county; real Indian corn, spelled with a big 'I', and there are five or six silos here, too. The information I will bring back will be a surprise even to Coburn."—Topeka Capital.

### Have Faith in Cut-Off

Guthrie, Okla., Oct. 11.—Through Santa Fe circles it is learned that with the construction of the Colmer cutoff southwest of Dodge City, Kansas, to Colmer, N. M., there will be built another connection from the Santa Fe's Panhandle line across northwest Oklahoma. This branch will be built northwest from Woodward, Okla., through Beaver, Okla., which is now forty miles from a railroad, will cross the Rock Island's El Paso line at Liberal, Kansas, and run west through Hugoton, Kansas, and Stevens county, tapping the big broomcorn country in that locality. This branch would give a railroad to a country that now has but the El Paso lines of the Rock Island, which from Liberal runs southwest through Guymon, Okla. The building of this branch hinges only on whether or not the Colmer cutoff is built. One-third of the right of way for the Colmer cutoff, however, has been secured.—Topeka Journal.

Mrs. Chas. Taylor, Mrs. O. M. Wood and Mrs. J. H. Cavanaugh were hostesses at a delightful little affair Wednesday evening at the lecture by Hon. Champ Clark. It was styled the Democratic Banquet, and was a take-off on that given at the Cimaroon. Mrs. R. T. Nichols acted as toastmistress, and at the close of the four course dinner, a number of toasts were given.

To our guests—Mrs. Cavanaugh. To our hostesses—Mrs. R. T. Nichols. To our candidates—Mrs. O. M. Wood. To our State—Mrs. C. E. Woods. Three-fiftya Plate—Mrs. D. A. Henry. To our friends—Miss May Flood. To the candidates wives—Mrs. J. F. McWilliams.

The Democrats—Mrs. R. E. Summers. To our sweethearts—Miss Eunice Adams.

To our City—Mrs. L. H. Sutton.

To our Mayor—Mrs. J. E. George.

To the United States—Mrs. J. F. Funk.

Judge W. H. Thompson, who has just finished trying a murder case in Haskell county, came down in his car Wednesday for the Clark banquet there. He went to Meade Thursday to look after some court matters for Judge Finley, and will be here Saturday on business. Albert Jones, court stenographer accompanied him.

A small comet may be seen in the western sky about 8 o'clock in the evening.

## County School News.

By Mary E. Todd.

### Come Let Us Live For Our Children.

Earl Terry called Monday evening to find a place to help pay his way while attending high school. He comes from Morton county and is in the 3rd year of high school. We like the grit of the boy who wants to work his way through school. Any one who can help him out phone to us, 4324.

Three teachers have brought in their monthly reports: James Lawrence, Grant N. Martin and Miss Grace Gleason. We thank these three teachers for their promptness. A few teachers have not yet taught a month and a few have not called for their reports. We hope to receive the reports promptly at the close of each month. If you cannot call at the office for your reports, drop us a card and we will send them to you. We would very much to have you call at the office for them as there are many things we would like to ask you about your schools. Remember the bi-monthly examination at the close of this month—October.

Kansas City, Kansas, now boasts of the greatest percentage of her population in the public schools of any city in the U. S. According to the latest statistics compiled by Supt. Greenwood of Kansas City public schools, Kansas City stands first with a percentage of 16.9 per cent, while Boston who has cinched the honor for generations, lingers in second place with 16.6 per cent, Omaha a third with 16 per cent, and Kansas City, Missouri has only 14.3 per cent which is, however, above the average.

Married women with children of their own will soon be attending the Atchison County High School. The domestic science department of the school has been thrown open to the women of the county and a class composed of ladies has been organized. It is the first public school in Kansas and possibly in the U. S. to throw such a course open to the public with no age limit. It is the first public school in our country which offers to educate people who, years ago quit school and are busy with home life.

Walt Mason gives us this little prose verse in the Daily Capital:

"We know so much that doesn't count! We load up with a vast amount of useless junk of Latin, Greek and tongues the dead ones used to speak—We learn to draw a little bit and then, old Euclid's stuff we hit. We learn a string of useless dates which learning nearly busts our pates. And when from school we take our way—in this broad world to put up with—We can't apply the things we've learned—and all our little works are spurned. The hopeful kids we send to school—will study by the same old rule—One may be built to twang the lyre and one to stoke an engine's fire; one has Caruso's gift to sing—and one may elevate the ring. What e'er the talent or the mind, they all must try the same old grind—and o'er their dog-eared volumes sweat—to learn fool things they should forget."

Seward county it will be noted, is away to the west and has a population last census 4,091 of whom 1556 are enrolled in the Sunday school. The county's Sunday school battle cry for the year is "1912 by 1912" a catchy challenge, and we'll do it.

Phelp's will take a vacation this week.

In the office of State Bank Commissioner J. N. Dooley is a memento of the recent bank failure at Hollywood. It is a pint whisky bottle covered with wickerwork and tied with a lavender ribbon. It is one of hundreds found in the vault and in the vault and in the drawers of the Hollywood bank by the examiner who was sent there to straighten up the affairs of the bank. The examiner sent it to the bank commissioner with a slip of paper tied around it. On the paper were these words, "this is what wrecked the bank." "That will wreck any bank if applied in the right place and frequently enough," said Commissioner Dooley.

We were sorry to have to send our regrets to this invitation—My dear Mrs. Todd—it gives us great pleasure to add to the invitation already sent you to the exercises to be held on Woman's Day Friday, October 6th, at ten o'clock in the Kansas University chapel, an invitation from the students of your county who have chosen you to be their guest of honor on that occasion. Sincerely yours, Alberta L. Corwin, Secretary, Lawrence, Kansas.

Misses Laura Woods and Edna Stevesson called Saturday afternoon to tell us about their first

month's work in teaching school. Miss Laura reports some excellent work in language done by her pupils the past month. We are anxious to visit her school and see it.

The State Superintendent writes us that Agriculture is a required study and should be taught in the 8th grade, also in the 9th in the rural schools. There should be an oral lesson daily in Agriculture for the whole school. Grades 8 and 8 will have a text book.

Saturday afternoon at 1:30 the teachers of the county will meet at Obern school west of district 12, Kismet and Liberal to exchange views and discuss chapters 1 and 2 in McMurray's How To Study and chapters 1-2-3 Teaching Geography. We hope every teacher in the county will be at one or the other places named and help all she can.

### Castor Beans

T. H. Taylor who lives about 15 miles northwest of Liberal this year raised a crop of castor beans. This is not the first crop of castor beans raised in the county, however. A number of years ago, many of the settlers raised this crop, which was said to be poisonous to cattle, and kept the cattle off their crops. This year, Mr. Taylor, who by the way is a socialist, put in eight acres of castor beans. Some of the beans did very well. He expects on an average to get six bushels to the acre. For the larger variety he will give live cents a pound. It takes 46 pounds to make a bushel. For the smaller variety he will receive one dollar per bushel. He says that he does not believe that this would be a profitable crop to raise on a large scale, but he has had very good luck this year. The beans have to be cultivated several times, and the pulled by hand. The burrs, which dry, pop open, and no threshing is necessary. The plant is of unusual appearance, and seems to grow well here. It would be a good idea to see the experiment carried further next year, and we believe that there will be a number who will put in a few castor beans next year.

### Dining Room Opened

The dining room at the Carson House was opened last week under the management of Mrs. L. E. Linn. The patronage of the general public is solicited and it will be appreciated.

### The Convention

On Sunday, the first day of October, 1911, another one of those noted township Sunday school conventions was held at the Liberty school house in district 26. It was one of interest and enthusiasm from beginning to end. Sunday school was conducted by Mr. August Siedl, the newly elected superintendent of the newly organized school at Liberty. He proved himself master of the situation and we predict great things for this, the youngest of our township Sunday schools. After the lesson hour, some interesting questions were discussed. Of course, the basket dinner was a part of the day's program and it certainly was characteristic of western Kansas hospitality. It was necessary to go out into the highways and hedges because we were all there and most assuredly quit ourselves like men. Space forbids us mentioning the many good things we saw and heard. Of course our county secretary, N. L. Falls, was there with a speech or two and rendered valuable assistance. R. M. Heath our county president, aided by his wise suggestions and other well known workers were out from Liberal. G. S. Spencer of Superior, was chosen as the delegate to represent the township at the state convention to be held at Hutchinson next May. Bro. Arbuthnot of Antelope presided, and did much to make it a success. We are glad we went.

G. E. Jennison,

Secretary Pro Tem.

## Commissioner's Proceedings

OFFICE OF THE COUNTY CLERK, SEWARD COUNTY, KANSAS.

Liberal, Kansas, Oct. 2nd, 1911.  
The Board of County Commissioners met in regular session at 10 o'clock, A. M., at the County Clerk's office, Liberal, Kansas, and were present: Chairman, W. W. Antrim and Eli Taylor, members of the Board and E. D. Cooper, County Clerk.

For advertisement the Board thereupon proceeded to open the bids received for the Old Jail Building and Grounds, viz:

A. A. Farmer for Lots only, and T. A. Targarden for both Lots and Building, bidding on them separately.

The sale of said building was thereupon awarded to John Stamps for his bid of \$800 and the sale of the real estate, being the North 1/2 of Lots 11 and 12, Block 35, to T. A. Targarden for his bid of \$100. They being the highest bidders for said property.

The Board thereupon examined and approved the permanent bond of T. A. Targarden, County Treasurer.

It was by the Board ordered that Bounties on Coyote Scals be hereafter paid by County Warrants at the regular Meetings of said Board; provided that the Scals have been delivered to the County Clerk, together with the tails of Coyotes from which such Scals were taken and an affidavit properly executed stating that said Coyotes were killed within the limits of Seward County, Kansas, subsequent to the date of October 2nd, 1911.

The County Superintendent, having appointed J. P. Ridenour, J. W. Edmonds and George A. Smith as appraisers of the school house to be moved in District 16; the appointment was by the Board approved.

The Prison Work of the Seward County Jail being completed as per contract with The Van Dorn Iron Works Co. of Cleveland, Ohio, by the Board examined, approved and accepted.

Reports of the Register of Deeds, Clerk of the District Court, County Superintendent and County Clerk, filed, examined and approved.

The following claims against the County were by the Board examined and allowed:

At Adjourned Meeting of Aug. 7th.  
L. H. Sutton, First Estimate on Jail, \$2,000.00  
Thas. Sammers & Sons, mds. for Jail, 50.00  
J. H. Sutton, material for septic tank, 74.20  
L. W. Wright, labor on septic tank, 201.54  
O. E. Keating, furnace extension, 11.25  
At Regular Meeting Oct. 2nd.
